

B&T veterinary pistol VP9 suppressed, cal. 9 x 19 mm

B&T veterinary pistol VP9 suppressed, cal. 9 x 19 mm

The VP9 is, as a repeating pistol in calibre 9 x 19 mm with an integrated suppressor, the most quiet pistol in this calibre on the market. The barrel, due to several holes in front of the chamber, slows normal (supersonic) ammunition down to subsonic speed, therefore the suppression is optimal.

Additional Information

Article-no.:	BT-410000
Calibre:	9mm x 19
System:	Bolt action
Operation:	Single shot
Length:	285 mm
Width:	35 mm
Height:	114 mm
Barrel Length:	50 mm
